

## Pageant website report for 2005

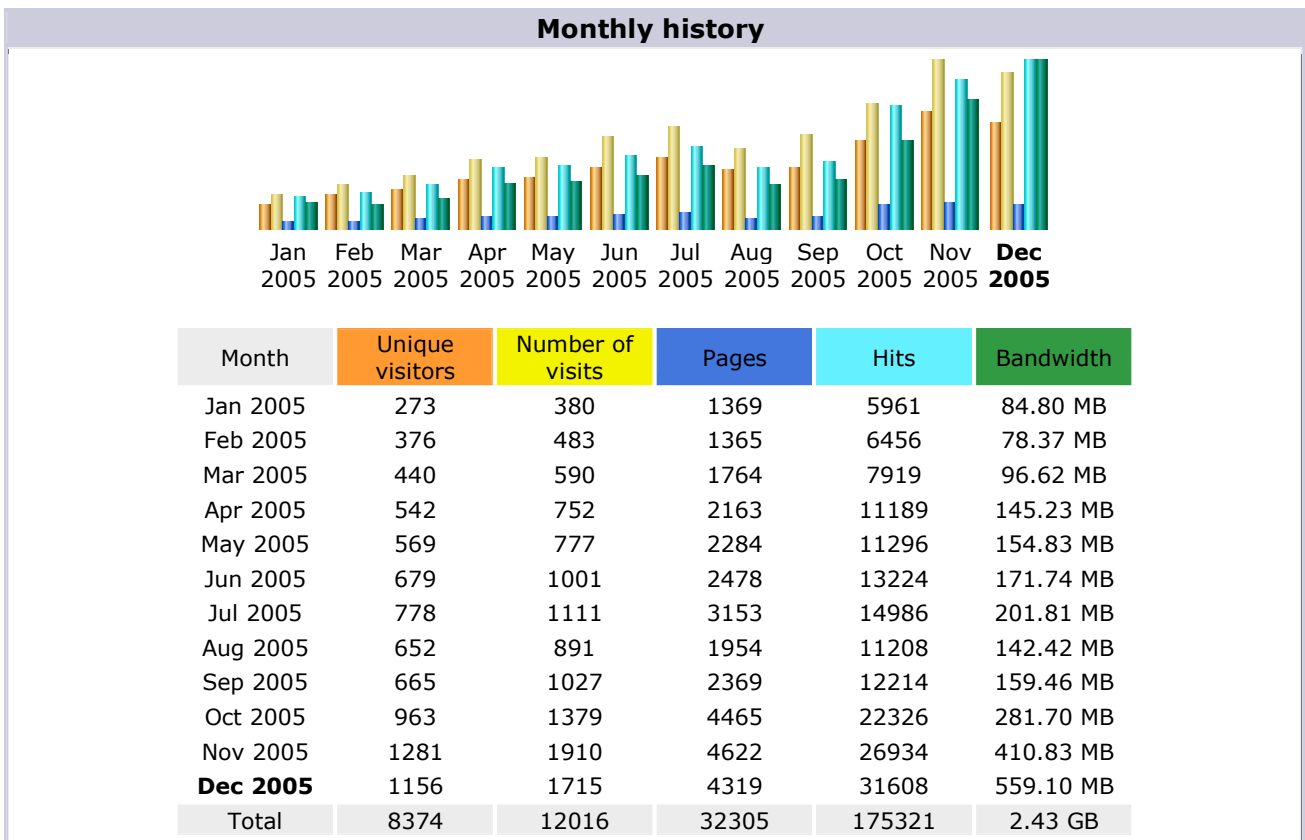

At this time last year, the Pageant website consisted of 67 html pages, 4 pdf documents and 12 video clips. The site now has 98 html pages, 8 pdf or Word documents and 12 videos. Nearly all pages have been revised or updated, so only 12 remain unchanged since 2004. There has been no significant change in the overall structure of the site, since the major restructuring which took place late in 2004. We still aim to comply as closely as possible with the W3C specifications on accessibility.

Traffic to the Pageant website has increased steadily over the year, and in total was about 3.6 times that for 2004. In November, we reached 80% of the 500MB bandwidth permitted by the hosting package, and had to move to a higher level package with a 2GB monthly bandwidth limit.

The Google search engine now has a 70% share of all search engine usage. The Pageant home page still has a Google PageRank of 4/10, and consistently comes within the top few pages on Google using the search terms 'gambia' 'education' and 'charity'.

Advanced Web Statistics 6.4 (build 1.814)

Appologies for the strange and irregular table borders. These are a consequence of importing a web page through Word in order to make the PDF document. Attempts to correct the problem just make things worse!
